#### FORWARD-LOOKING STATEMENTS

Exhibits 99.1 and 99.2 contain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, including statements relating to our business, goals, strategy and financial and operational outlook. These "forward-looking statements" are based on management's current expectations of future events and are subject to a number of risks and uncertainties that could cause actual results to differ materially and adversely from those set forth in or implied by forward-looking statements. These risks and uncertainties include, but are not limited to: the risk that sales and profit margins of our existing molecular diagnostic tests and pharmaceutical and clinical services may decline or will not continue to increase at historical rates; risks related to our ability to transition from our existing product portfolio to our new tests; risks related to changes in the governmental or private insurers reimbursement levels for our tests or our ability to obtain reimbursement for our new tests at comparable levels to our existing tests; risks related to increased competition and the development of new competing tests and services; the risk that we may be unable to develop or achieve commercial success for additional molecular diagnostic tests and pharmaceutical and clinical services in a timely manner, or at all; the risk that we may not successfully develop new markets for our molecular diagnostic tests and pharmaceutical and clinical services, including our ability to successfully generate revenue outside the United States; the risk that licenses to the technology underlying our molecular diagnostic tests and pharmaceutical and clinical services tests and any future tests are terminated or cannot be maintained on satisfactory terms; risks related to delays or other problems with operating our laboratory testing facilities; risks related to public concern over our genetic testing in general or our tests in particular; risks related to regulatory requirements or enforcement in the United States and foreign countries and changes in the structure of the healthcare system or healthcare payment systems; risks related to our ability to obtain new corporate collaborations or licenses and acquire new technologies or businesses on satisfactory terms, if at all; risks related to our ability to successfully integrate and derive benefits from any technologies or businesses that we license or acquire; risks related to our projections about the potential market opportunity for our products; the risk that we or our licensors may be unable to protect or that third parties will infringe the proprietary technologies underlying our tests; the risk of patent-infringement claims or challenges to the validity of our patents; risks related to changes in intellectual property laws covering our molecular diagnostic tests and pharmaceutical and clinical services and patents or enforcement in the United States and foreign countries, such as the Supreme Court decision in the lawsuit brought against us by the Association for Molecular Pathology et al; risks of new, changing and competitive technologies and regulations in the United States and internationally; and other factors discussed under the heading "Risk Factors" contained in Item 1A of our most recent Annual Report on Form 10-K, which has been filed

with the Securities and Exchange Commission, as well as any updates to those risk factors filed from time to time in our Quarterly Reports on Form 10-Q or Current Reports on Form 8-K. All information in the exhibits is as of the date of the exhibits, and Myriad undertakes no duty to update this information unless required by law.

#### Myriad Genetics Reports Fiscal Third-Quarter 2017 Financial Results

- Third-Quarter 2017 Total Revenues of \$196.9 Million
- Third-Quarter 2017 GAAP Diluted EPS of \$0.06 and Adjusted EPS of \$0.27
- Company Increases Annual Revenue Guidance, Narrows Adjusted EPS Guidance

SALT LAKE CITY, UTAH, May 2, 2017 – Myriad Genetics, Inc. (NASDAQ: MYGN), a global leader in molecular diagnostics and personalized medicine, today announced financial results for its fiscal third-quarter 2017, provided an update on recent business highlights and updated its fiscal year 2017 financial guidance.

"We were very encouraged to see sequential growth in hereditary cancer testing volumes for the second consecutive quarter," said Mark C. Capone, president and CEO, Myriad Genetics. "Coupled with meaningful sequential volume growth in all of our major pipeline tests including GeneSight, Vectra DA, Prolaris, and EndoPredict, we believe we are rapidly approaching an important inflection in our business where our new products will drive accelerated revenue growth and profitability."

#### Financial Highlights • The follo

#### • myRisk<sup>®</sup> Hereditary Cancer

- Hereditary cancer volumes grew on a sequential basis for the second consecutive quarter.
- A publication in *The Oncologist* by researchers at Northwestern University compared 4,250 variants from ClinVar to those from Myriad Genetics. In the study, only 73 percent of the classifications in ClinVar were consistent with Myriad classifications with 27 percent discordant. In addition, it was shown that Myriad could definitely classify up to 60 percent of the variants of uncertain significance from other laboratories.
- GeneSight®
  - Volume grew 44 percent year-over-year to more than 60,000 tests performed in the fiscal third-quarter.
  - Completed enrollment ahead of schedule in a 1,200 patient clinical utility study evaluating GeneSight in patients with treatment resistant depression. The company anticipates top line data by the end of calendar year 2017.
  - Published data in *Clinical Therapeutics* which evaluated 2,168 patients whose treatment was either congruent or non-congruent with the GeneSight test result which demonstrated health savings of \$3,998 for primary care physicians and \$1,308 for patients treated by psychiatrists after paying for the cost of the test.
  - Completed a payer demonstration project using the Optum healthcare informatics platform from United Health that demonstrated substantial cost savings associated with the use of GeneSight. Initiated similar demonstration projects with Humana and HealthCore, a subsidiary of Anthem Blue Cross Blue Shield.
  - Launched highly a successful pilot sales program for GeneSight in the preventive care market with the average sales territory already generating a 300 sample annual run rate.

#### Vectra<sup>®</sup> DA

- Volumes increased five percent sequentially with approximately 38,500 tests performed.
- Creaky Joints, a leading advocacy group for arthritis patients added Vectra DA to its professional guidelines. This builds upon the recent addition of Vectra DA to the United Rheumatology guidelines, a physician guideline body comprising approximately 10 percent of practicing rheumatologists.

#### • Prolaris®

- Volumes grew 17 percent year-over-year and nine percent sequentially with approximately 5,100 tests ordered in the third quarter.
- The comment period ended on a draft local coverage determination from Palmetto GBA for favorable-intermediate patients, a new indication that would
  represent a market expansion of approximately 30,000 patients per year in the United States. Prolaris is the only test to receive proposed Medicare
  coverage in this patient population.
- At the upcoming American Urology Association meeting, Myriad will be presenting a 767 patient study that demonstrated the ability of Prolaris to predict metastases from biopsy samples with a high degree of statistical significance.

#### EndoPredict<sup>®</sup>

- Revenues grew 109 percent year-over-year to \$2.3 million in the fiscal third-quarter.
- Launched EndoPredict in the United States at the end of the fiscal third-quarter.
- In aggregate, Myriad has now received positive coverage decisions from payers in the United States representing 83 million lives.

#### myPath® Melanoma

- Myriad's third clinical validation study, which demonstrated myPath Melanoma was able to differentiate melanoma from benign nevi with 95 percent diagnostic accuracy, was published in *Cancer Epidemiology*.
- Myriad has submitted its reimbursement dossier for myPath Melanoma to Medicare and private payers.

#### Companion Diagnostics

- AstraZeneca announced that olaparib met its primary endpoint in BRCA positive, HER2- metastatic breast cancer in the OlympiAD study, demonstrating a
  statistically significant benefit in progression free survival. This represents a potential 60,000 patient per year market for BRACAnalysis CDx as a
  companion diagnostic.
- Myriad signed a research collaboration with BeiGene which is a global pharmaceutical company developing the PARP inhibitor BGB-290 in the United States.
- Signed a commercial collaboration with Clovis Oncology to perform BRACAnalysis CDx testing. Myriad is now performing companion diagnostic testing for every major company developing a PARP inhibitor.

- Submitted our regulatory filing in Japan for BRACAnalysis CDx as the companion diagnostic for Lynparza in conjunction with our collaboration with AstraZeneca.
- International
  - International revenue grew 41 percent year-over-year and comprised five percent of total revenue in the fiscal third-quarter.
  - International EndoPredict revenue grew 109 percent year-over-year, largely as a result of recent French and German reimbursement.

#### Fiscal Year 2017 and Fiscal Fourth-Quarter 2017 Financial Guidance

Below is a table summarizing Myriad's updated fiscal year 2017 and fiscal fourth-quarter 2017 financial guidance:

	Revenue	GAAP Diluted Earnings Per Share	Adjusted Earnings Per Share
	\$763-\$765		
Fiscal Year 2017	million	\$ 0.23-\$0.25	\$ 1.01-\$1.03
	\$192-\$194		
Fiscal Fourth-Quarter 2017	million	\$ 0.11-\$0.13	\$ 0.26-\$0.28

These projections are forward-looking statements and are subject to the risks summarized in the safe harbor statement at the end of this press release. The Company will provide further details on its business outlook during the conference call today to discuss the fiscal third-quarter financial results, fiscal year 2017, and fiscal fourth-quarter 2017 financial guidance.

#### Safe Harbor Statement

This press release contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, including statements relating to the Company's anticipated volumes, revenue and profitability from existing and new products; the Company's belief that it is rapidly approaching an important inflection in its business where its new products will drive accelerated revenue growth and profitability; the Company's expectation of receiving top line data from a 1,200 patient clinical utility study evaluating GeneSight in patients with treatment resistant depression by the end of calendar year 2017; the potential market expansion of approximately 30,000 patients per year for Prolaris based on Palmetto GBA's draft coverage determination; the potential 60,000 patient per year market for BRACAnalysis CDx as a companion diagnostic to olaparib; the Company's anticipated study presentation at the upcoming American Urology Association meeting; the Company's fiscal fourth-quarter guidance of total revenue of \$192 to \$194 million, diluted earnings per share of \$0.11 to \$0.13, and adjusted earnings per share of \$0.26 to \$0.28, and the Company's updated fiscal full year guidance of total revenue of \$763 to \$765 million, diluted earnings per share of \$0.23 to \$0.25, and adjusted earnings per share of \$1.01 to \$1.03, as further discussed under the caption "Fiscal Year 2017 and Fiscal Fourth-Quarter 2017 Financial Guidance"; and the Company's strategic directives under the caption "About Myriad Genetics." These "forward-looking statements" are based on management's current expectations of future events and are subject to a number of risks and uncertainties that could cause actual results to differ materially and adversely from those described or implied in the forward-looking statements. These risks include, but are not limited to: the risk that sales and profit margins of our existing molecular diagnostic tests and pharmaceutical and clinical services may decline or will not continue to increase at historical rates; risks related to our ability to transition from our existing product portfolio to our new tests; risks related to changes in the governmental or private insurers' reimbursement levels for our tests or our ability to obtain reimbursement for our new tests at comparable levels to our existing tests; risks related to increased competition and the development of new competing tests and services; the risk that we may be unable to develop or achieve commercial success for additional molecular diagnostic tests and pharmaceutical and clinical services in a timely manner, or at all; the risk that we may not successfully develop new markets for our molecular diagnostic tests and pharmaceutical and clinical services, including our ability to successfully generate revenue outside the United States; the risk that licenses to the technology underlying our molecular diagnostic tests and pharmaceutical and clinical services tests and any future tests are terminated or cannot be maintained on satisfactory terms; risks related to delays or other problems with operating our laboratory testing facilities; risks related to public concern over our genetic testing in general or our tests in particular; risks related to regulatory requirements or enforcement in the United States and

foreign countries and changes in the structure of the healthcare system or healthcare payment systems; risks related to our ability to obtain new corporate collaborations or licenses and acquire new technologies or businesses on satisfactory terms, if at all; risks related to our ability to successfully integrate and derive benefits from any technologies or businesses that we license or acquire, including but not limited to our acquisition of Assurex, Sividon and the Clinic; risks related to our projections about the potential market opportunity for our products; the risk that we or our licensors may be unable to protect or that third parties will infringe the proprietary technologies underlying our tests; the risk of patent-infringement claims or challenges to the validity of our patents; risks related to changes in intellectual property laws covering our molecular diagnostic tests and pharmaceutical and clinical services and patents or enforcement in the United States and foreign countries, such as the Supreme Court decision in the lawsuit brought against us by the Association for Molecular Pathology et al; risks of new, changing and competitive technologies and regulations in the United States and internationally; the risk that we may be unable to comply with financial operating covenants under our credit or lending agreements; the risk that we will be unable to pay, when due, amounts due under our credit or lending agreements; and other factors discussed under the heading "Risk Factors" contained in Item 1A of our Annual report on Form 10-K for the fiscal year ended June 30, 2016, which has been filed with the Securities and Exchange Commission, as well as any updates to those risk factors filed from time to time in our Quarterly Reports on Form 10-Q or Current Reports on Form 8-K.

#### Statement regarding use of non-GAAP financial measures

In this press release, the Company's financial results and financial guidance are provided in accordance with accounting principles generally accepted in the United States (GAAP) and using certain non-GAAP financial measures. Management believes that presentation of operating results using non-GAAP financial measures provides useful supplemental information to investors and facilitates the analysis of the Company's core operating results and comparison of operating results across reporting periods. Management also uses non-GAAP financial measures to establish budgets and to manage the Company's business. A reconciliation of the GAAP financial results to non-GAAP financial results is included in the attached schedules.

Following is a description of the adjustments made to GAAP financial measures:

Acquisition - amortization of intangible assets: Represents recurring amortization charges resulting from the acquisition of intangible assets, including developed technology and database rights.

- Acquisition integration related costs: Costs related to closing and integration of acquired companies
- Tax impact related to equity compensation Changes in effective tax rate based upon ASU 2016-09
- Tax expense associated with R&D tax credit reserves One time net benefits associated with the release of R&D tax credit reserves.
- Potential future consideration related to acquisitions Non-cash expenses related to valuation adjustments of earn-out and milestone payments tied to recent
  acquisitions
- One-time debt restructuring charges Charges related to the restructuring of the company's debt from a one-year term loan to a revolving credit facility
- One-time non-deductible costs One-time non-deductible tax items
- Impairment of Raindance Investment One-time impairment charge associated with Myriad's investment in Raindance Technologies

The Company encourages investors to carefully consider its results under GAAP, as well as its supplemental non-GAAP information and the reconciliation between these presentations, to more fully understand its business. Non-GAAP financial results are reported in addition to, and not as a substitute for, or superior to, financial measures calculated in accordance with GAAP.

## Forward Looking Statements

### Forward Looking Statements

Some of the information presented here today may contain projections or other forward-looking statements regarding future events or the future financial performance of the Company. These statements are based on management's current expectations and the actual events or results may differ materially and adversely from these expectations. We refer you to the documents the Company files from time to time with the Securities and Exchange Commission, specifically, the Company's annual reports on Form 10-K, its quarterly reports on Form 10-Q, and its current reports on Form 8-K. These documents identify important risk factors that could cause the actual results to differ materially from those contained in the Company's projections or forwardlooking statements.

For additional information on GAAP to non-GAAP reconciliation see: <u>https://www.myriad.com/investors/gaap-to-nongaap-reconciliation/</u>

In this presentation, the Company's financial results and financial guidance are provided in accordance with accounting principles generally accepted in the United States (GAAP) and using certain non-GAAP financial measures. The Company's financial measures under GAAP include substantial one-time charges related to its acquisitions and ongoing amortization expense related to acquired intangible assets that will be recognized over the useful lives of the assets and charges related to executive severance. Management believes that presentation of operating results that excludes these items provides useful supplemental information to investors and facilitates the analysis of the Company's core operating results and comparison of operating results across reporting periods. Management also uses non-GAAP financial measures to establish budgets and to manage the Company's business. A reconciliation of the GAAP to non-GAAP financial guidance is provided below.
