Myriad Genetics Announces Cancer Research Collaboration With Janssen

BRCA*Analysis*[®] Testing Will be Performed in Phase 3 Clinical Trial

SALT LAKE CITY, Dec. 9, 2013 (GLOBE NEWSWIRE) -- Myriad Genetics, Inc. (Nasdaq:MYGN) today announced that Janssen Research & Development, LLC, will use Myriad's BRCA*Analysis* test in connection with its Phase 3 clinical trial of Yondelis[®] (trabectedin) in the treatment of advanced-relapsed epithelial ovarian, primary peritoneal or fallopian tube cancers (NCT01846611). Specific terms of the deal were not disclosed.

"We are delighted to be collaborating with Janssen and applying our more than 20 years of BRCA-testing experience to help advance clinical cancer research," said Mark C. Capone, president of Myriad Genetics Laboratories. "A key element of our business strategy is to partner with major pharmaceutical companies to establish BRCA*Analysis* as the leading companion diagnostic and this partnership is yet another important step toward that goal and the era of precision medicine and personalized healthcare."

About BRCA*Analysis*

Myriad's BRCA*Analysis* is the gold standard diagnostic test to confirm the presence of a BRCA1 or BRCA2 gene mutations. BRCA*Analysis* has been used by approximately 60,000 healthcare providers to test more than 1 million patients.

About Myriad Genetics

Myriad Genetics is a leading molecular diagnostic company dedicated to making a difference in patients' lives through the discovery and commercialization of transformative tests to assess a person's risk of developing disease, guide treatment decisions and assess risk of disease progression and recurrence. Myriad's portfolio of molecular diagnostic tests are based on an understanding of the role genes play in human disease and were developed with a commitment to improving an individual's decision making process for monitoring and treating disease. Myriad is focused on strategic directives to introduce new products, including companion diagnostics, as well as expanding internationally. For more information on how Myriad is making a difference, please visit the Company's website: www.myriad.com.

Safe Harbor Statement

This press release contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, including statements relating to the use of Myriad's BRCA*Analysis* test in Janssen's Phase 3 clinical studies for Yondelis; and the Company's strategic directives under the caption "About Myriad Genetics". These "forward-looking statements" are management's present expectations of future events and are subject to a number of risks and uncertainties that could cause actual results to differ materially and adversely from those described in the forward-looking statements. These risks include, but are not limited to: the risk that sales and profit margins of our existing molecular diagnostic tests and companion diagnostic services may decline or will not continue to increase at historical rates; risks related to changes in the governmental or private insurers reimbursement levels for our tests; the risk that we may be unable to develop or achieve commercial success for additional molecular diagnostic tests and companion diagnostic services in a timely manner, or at all; the risk that we may not successfully develop new markets for our molecular diagnostic tests and companion diagnostic services, including our ability to successfully generate revenue outside the United States; the risk that licenses to the technology underlying our molecular diagnostic tests and companion diagnostic services tests and any future tests are terminated or cannot be maintained on satisfactory terms; risks related to delays or other problems with operating our laboratory testing facilities; risks related to public concern over our genetic testing in general or our tests in particular; risks related to regulatory requirements or enforcement in the United States and foreign countries and changes in the structure of the healthcare system or healthcare payment systems; risks related to our ability to obtain new corporate collaborations or licenses and acquire new technologies or businesses on satisfactory terms, if at all; risks related to our ability to successfully integrate and derive benefits from any technologies or businesses that we license or acquire; the development of competing tests and services; the risk that we or our licensors may be unable to protect the proprietary technologies underlying our tests; the risk of patent-infringement claims or challenges to the validity of our patents; risks of new, changing and competitive technologies and regulations in the United States and

internationally; and other factors discussed under the heading "Risk Factors" contained in Item 1A in our most recent Annual Report on Form 10-K filed with the Securities and Exchange Commission, as well as any updates to those risk factors filed from time to time in our Quarterly Reports on Form 10-Q or Current Reports on Form 8-K. All information in this press release is as of the date of the release, and Myriad undertakes no duty to update this information unless required by law.
