## EXPLANATORY NOTE

This Amendment No. 1 to the Current Report on Form 8-K (“Amendment”) is being furnished to amend Items 2.02 and 9.01 of the Current Report on Form 8-K furnished on February 6, 2020 announcing the registrant’s financial results for the three and six months ended December 31, 2019 to correct errors with respect to Reconciliation of GAAP to Non-GAAP Financial Measures and the Free Cash Flow Reconciliation used in the non-GAAP financial presentation. This Amendment does not change the registrant’s GAAP results and guidance provided on February 6, 2020.

### ITEM 2.02 Results of Operations and Financial Condition

On February 7, 2020, Myriad Genetics, Inc. (“Myriad”) posted a corrected press release on its website announcing its financial results for the three and six months ended December 31, 2019 to correct the earnings release issued on February 6, 2020 (“Original Release”). The Original Release inadvertently stated in the Reconciliation of GAAP to Non-GAAP Financial Measures that GAAP earnings per share was \$(0.38) for the six months ended December 31, 2019. The correct GAAP earnings per share was \$(0.39) for the six months ended December 31, 2019. The Original Release also inadvertently used incorrect inputs in the Free Cash Flow Reconciliation for the three months ended December 31, 2019 and December 31, 2018 and inadvertently omitted the settlement of the hereditary cancer qui tam complaint in the calculation of non-GAAP free cash flow for the three and six months ended December 31, 2019. Myriad has prepared and furnished, as Exhibit 99.1 to this Amendment, a corrected earnings release which includes the corrected information. The corrections to the Reconciliation of GAAP to Non-GAAP Financial Measures and the Free Cash Flow Reconciliation did not impact Myriad’s GAAP results reported in the Original Release and did not change Myriad’s guidance that it provided in the Original Release. The corrected earnings release is attached hereto as Exhibit 99.1 to this Amendment and incorporated herein by reference.

### ITEM 7.01 Regulation FD Disclosure

On its earnings conference call for the three and six months ended December 31, 2019, Myriad also delivered a slide presentation, which is attached hereto as Exhibit 99.2 to this Current Report on Form 8-K and incorporated herein by reference. The slide presentation will also be available under the “Investors –Events & Presentations” section of Myriad’s website at [www.myriad.com](http://www.myriad.com).

## FORWARD-LOOKING STATEMENTS

Exhibits 99.1 and 99.2 contain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995, including statements relating to our business, goals, strategy and financial and operational outlook. These “forward-looking statements” are management’s present expectations of future events and are subject to a number of risks and uncertainties that could cause actual results to differ materially and adversely from those set forth in or implied by forward-looking statements. These risks include, but are not limited to: the risk that sales and profit margins of our existing molecular diagnostic tests and pharmaceutical and clinical services may decline or will not continue to increase at historical rates; risks related to our ability to transition from our existing product portfolio to our new tests; risks related to changes in the governmental or private insurers reimbursement levels for our tests or our ability to obtain reimbursement for our new tests at comparable levels to our existing tests; risks related to increased competition and the development of new competing tests and services; the risk that we may be unable to develop or achieve commercial success for additional molecular diagnostic tests and pharmaceutical and clinical services in a timely manner, or at all; the risk that we may not successfully develop new markets for our molecular diagnostic tests and pharmaceutical and clinical services, including our ability to successfully generate revenue outside the United States; the risk that licenses to the technology underlying our molecular diagnostic tests and pharmaceutical and clinical services tests and any future tests are terminated or cannot be maintained on satisfactory terms; risks related to delays or other problems with operating our laboratory testing facilities; risks related to public concern over our genetic testing in general or our tests in particular; risks related to regulatory requirements or enforcement in the United States and foreign countries and changes in the structure of the healthcare system or healthcare payment systems; risks related to our ability to obtain new corporate collaborations or licenses and acquire new technologies or businesses on satisfactory terms, if at all; risks related to

---

our ability to successfully integrate and derive benefits from any technologies or businesses that we license or acquire; risks related to our projections about the potential market opportunity for our products; the risk that we or our licensors may be unable to protect or that third parties will infringe the proprietary technologies underlying our tests; the risk of patent-infringement claims or challenges to the validity of our patents; risks related to changes in intellectual property laws covering our molecular diagnostic tests and pharmaceutical and clinical services and patents or enforcement in the United States and foreign countries, such as the Supreme Court decisions in *Mayo Collab. Servs. v. Prometheus Labs., Inc.*, 566 U.S. 66 (2012), *Ass’n for Molecular Pathology v. Myriad Genetics, Inc.*, 569 U.S. 576 (2013), and *Alice Corp. v. CLS Bank Int’l*, 573 U.S. 208 (2014); risks of new, changing and competitive technologies and regulations in the United States and internationally; the risk that we may be unable to comply with financial operating covenants under our credit or lending agreements; the risk that we will be unable to pay, when due, amounts due under our credit or lending agreements; and other factors discussed under the heading “Risk Factors” contained in Item 1A of our most recent Annual Report on Form 10-K, which has been filed with the Securities and Exchange Commission, as well as any updates to those risk factors filed from time to time in our Quarterly Reports on Form 10-Q or Current Reports on Form 8-K. All information in the exhibits is as of the date of the exhibits, and Myriad undertakes no duty to update this information unless required by law.

### **Myriad Genetics Reports Fiscal Second-Quarter 2020 Financial Results**

- **Total Second-Quarter Revenues of \$195.1 Million**
- **Second-Quarter Diluted EPS of (\$0.11) and Adjusted EPS of \$0.23**

**SALT LAKE CITY, Feb. 6, 2020** – Myriad Genetics, Inc. (NASDAQ: MYGN, “Myriad” or the “Company”), a global leader in molecular diagnostics and precision medicine, today announced financial results for its fiscal second-quarter 2020, provided an update on recent business highlights and provided revised fiscal year and third-quarter 2020 financial guidance.

“Revenue in the fiscal second quarter fell short of expectations largely due to the prenatal business. Prenatal cash collections were negatively impacted by issues in billing operations that occurred during the transition of the homegrown Counsyl billing system to an industry-standard system used by Myriad. We are in the process of implementing a number of initiatives focused on improving cash collections, have made several organizational changes to bolster growth and are evaluating additional initiatives,” said R. Bryan Riggsbee, president and CEO, Myriad Genetics. “Despite recent payer related headwinds, we continue to see significant near-term prospects to drive increased revenue and I am highly focused on returning Myriad to a position of sustained long-term profitable growth.”

- **Recent Business Highlights Portfolio Payer Contract**
    - Signed a fixed-price portfolio contract with UnitedHealthcare.
  - **Hereditary Cancer**
    - Grew hereditary cancer volumes at a mid-single digit rate on a year-over-year basis.
    - Presented data at the San Antonio Breast Cancer Symposium demonstrating the ability of riskScore® to modify cancer risk assessments for women with breast cancer who test positive for a genetic mutation in common breast cancer genes.
    - Received regulatory approval from Japan's Ministry of Health, Labour and Welfare for the BRACAnalysis® Diagnostic System to help physicians determine which women with breast cancer have Hereditary Breast and Ovarian Cancer (HBOC) syndrome and qualify for additional medical management.
  - **GeneSight®**
    - Agreed to GeneSight coverage with additional major self-funded employers bringing the total to six and are in discussions with an additional 21 companies.
    - Published the precision medicine analysis of the GUIDED study in the *Journal of Clinical Psychiatry*. The study evaluated 787 patients at baseline who were on medications with known gene drug interactions. The analysis showed that patients who had their treatment guided by GeneSight saw a 70 percent improvement in remission, 42 percent improvement in response, and a 23 percent improvement in symptoms, all of which were statistically significant.
    - Published a new analysis of the GUIDED clinical trial using the 6-item Hamilton Depression Rating Scale (HAM-D6) in *BMC Psychiatry*. The key finding of the study was that there were statistically significant improvements in all three clinical endpoints of remission, response and symptoms between GeneSight®-guided care and treatment-as-usual at Week 8 using the HAM-D6 scale.
  - **Prenatal**
    - Published a new study in *Prenatal Diagnosis* demonstrating that Prequel® is the only non-invasive prenatal screening (NIPS) test that outperforms traditional measures of aneuploidy detection across all classes of obesity. Other NIPS testing methodologies can have failure rates up to 24 percent in obese patients leading the American College of Gynecology to recommend against using NIPS in patients with significant obesity.
    - Published data from a 58,000 patient study in *Ultrasound in Obstetrics and Gynecology* showing Prequel is more sensitive than other technologies in low fetal fraction samples with an industry leading 1 in 1,000 no call rate.
  - **Vectra®**
-

- o The test was included in an American College of Rheumatology publication stating that the test was one of several disease activity measures that met a minimum standard for regular clinic use.
- **Polaris®**
  - o Grew Polaris volumes at a double-digit rate in the fiscal-second quarter.
  - o Received a positive coverage decision from Wellmark Blue Cross and Blue Shield for Polaris.
- **Companion Diagnostics**
  - o Submitted application with the U.S. Food and Drug Administration (FDA) for BRACAnalysis® CDx as a companion diagnostic test for Lynparza® in metastatic, castrate-resistant, prostate cancer patients with germline *BRCA* mutations.
  - o Received FDA approval for BRACAnalysis CDx as a companion diagnostic test for patients with metastatic pancreatic cancer seeking treatment with Lynparza.
  - o Received FDA approval for myChoice® CDx as a companion diagnostic in ovarian cancer patients being considered for niraparib PARP inhibitor therapy in accordance with the approved label.
  - o Received Application for Advanced Diagnostic Laboratory Test status for myChoice CDx with an initial price of \$4,040.

#### **Fiscal Year 2020 and Fiscal Third-Quarter 2020 Financial Guidance**

Below is a table summarizing Myriad's fiscal year 2020 and fiscal third-quarter 2020 financial guidance:

|                           | Revenue       | GAAP Diluted Earnings Per Share | Adjusted Earnings Per Share |
|---------------------------|---------------|---------------------------------|-----------------------------|
| Fiscal Year 2020          | \$735 million | (\$0.80)                        | \$0.45                      |
| Fiscal Third-Quarter 2020 | \$172 million | (\$0.30)                        | \$0.02                      |

Myriad's fiscal year 2020 and third-quarter 2020 adjusted earnings per share guidance excludes the impact of stock-based compensation expense, non-cash amortization associated with acquisitions and certain non-recurring expenses. These projections are forward-looking statements and are subject to the risks summarized in the safe harbor statement at the end of this press release. The company will provide further details on its business outlook during the conference call today and discuss the fiscal second-quarter financial results and fiscal year 2020 financial guidance.

### Statement regarding use of non-GAAP financial measures

In this press release, the Company's financial results and financial guidance are provided in accordance with accounting principles generally accepted in the United States (GAAP) and using certain non-GAAP financial measures. Management believes that presentation of operating results using non-GAAP financial measures provides useful supplemental information to investors and facilitates the analysis of the Company's core operating results and comparison of operating results across reporting periods. Management also uses non-GAAP financial measures to establish budgets and to manage the Company's business. A reconciliation of the GAAP financial results to non-GAAP financial results is included in the attached schedules.

Following is a description of the adjustments made to GAAP financial measures:

- Acquisition – amortization of intangible assets: Represents recurring amortization charges resulting from the acquisition of intangible assets, including developed technology and database rights
- Acquisition – integration related costs: Costs related to closing and integration of acquired companies
- Equity compensation – non-cash equity-based compensation provided to Myriad employees
- Impairment of goodwill classified as held for sale – Impairment charges related to the sale of the German clinic.
- Deferred Tax impact of non-GAAP adjustments: Changes in effective tax rate based upon ASU 2016-09 and the deferred tax impact of non-deductible acquisition costs
- Non-recurring legal expenses – one-time legal expenses tied to non-recurring events
- Potential future consideration related to acquisitions: Non-cash expenses related to valuation adjustments of earn-out and milestone payments tied to recent acquisitions
- Elevate Initiatives: Expenses tied to Elevate 2020 program

The Company encourages investors to carefully consider its results under GAAP, as well as its supplemental non-GAAP information and the reconciliation between these presentations, to more fully understand its business. Non-GAAP financial results are reported in addition to, and not as a substitute for, or superior to, financial measures calculated in accordance with GAAP.
